

die Vorbereitung des Papiers

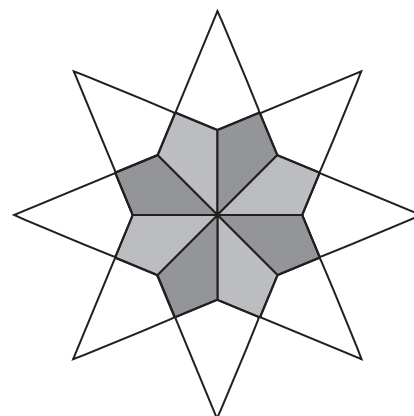

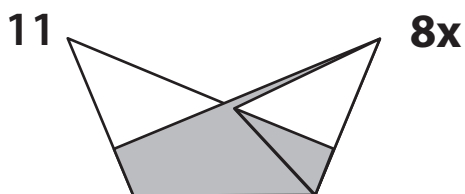

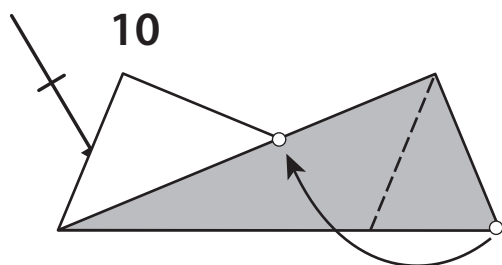

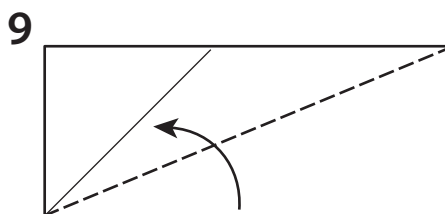

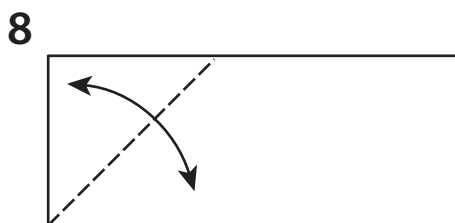

Entlang der oberen Kante
Papier nach hinten falten.

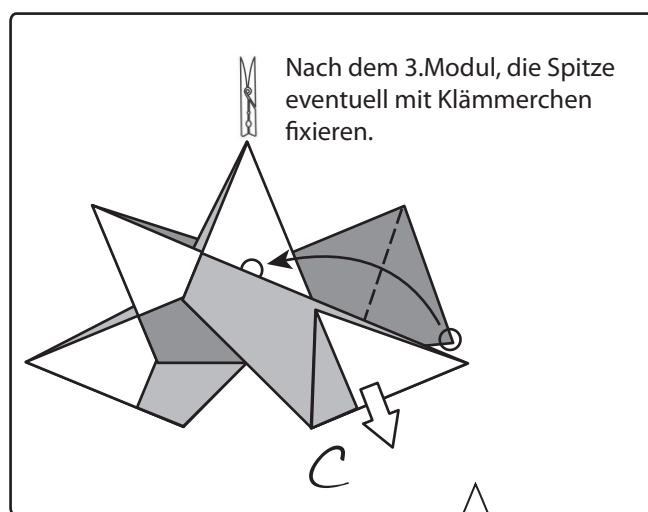

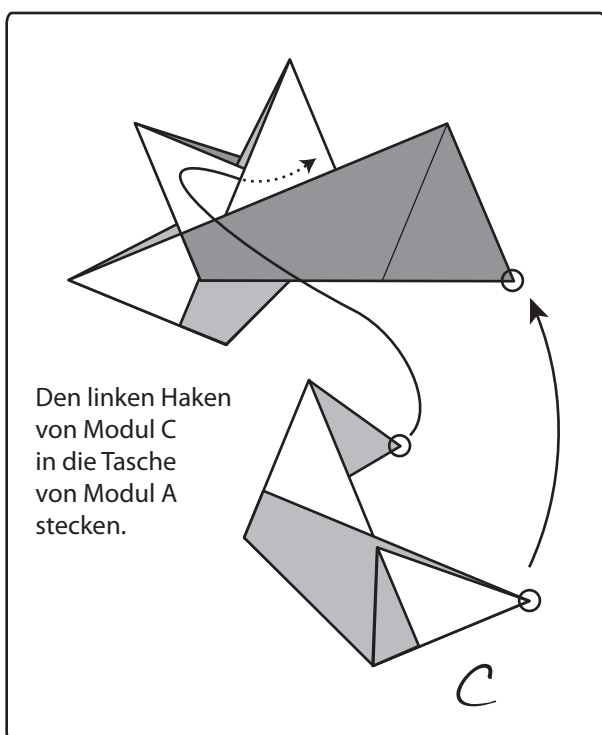

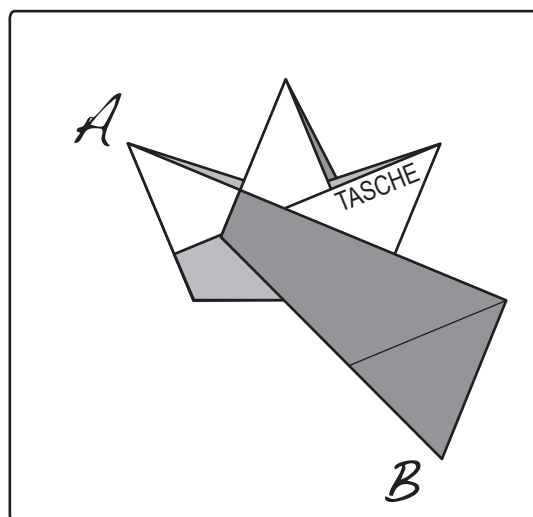

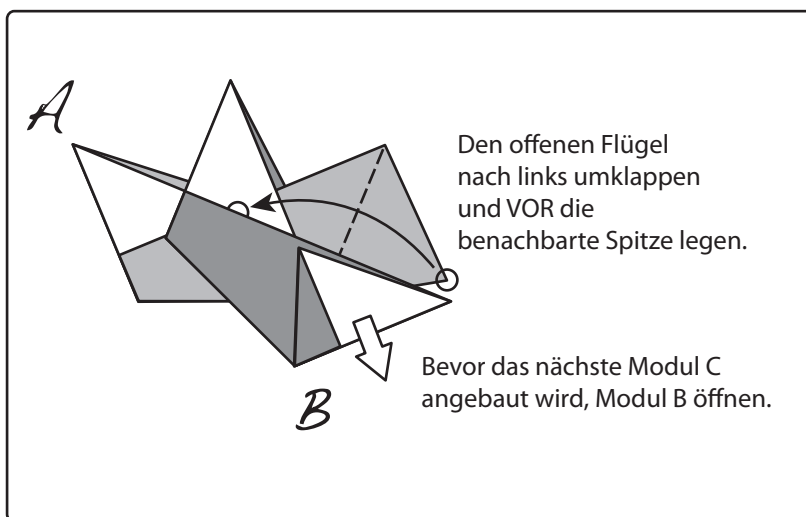

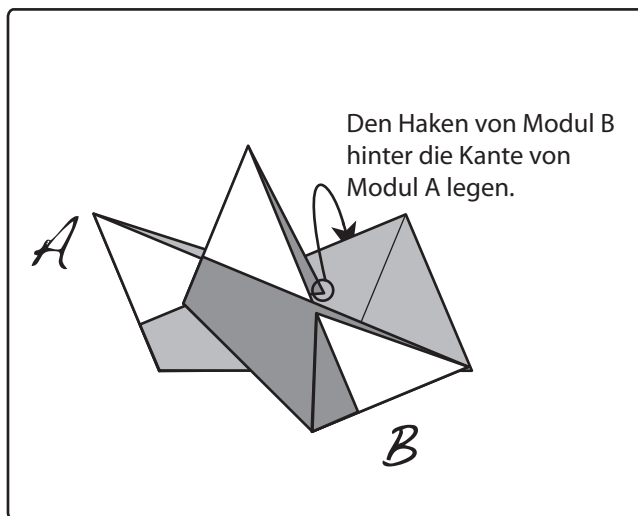

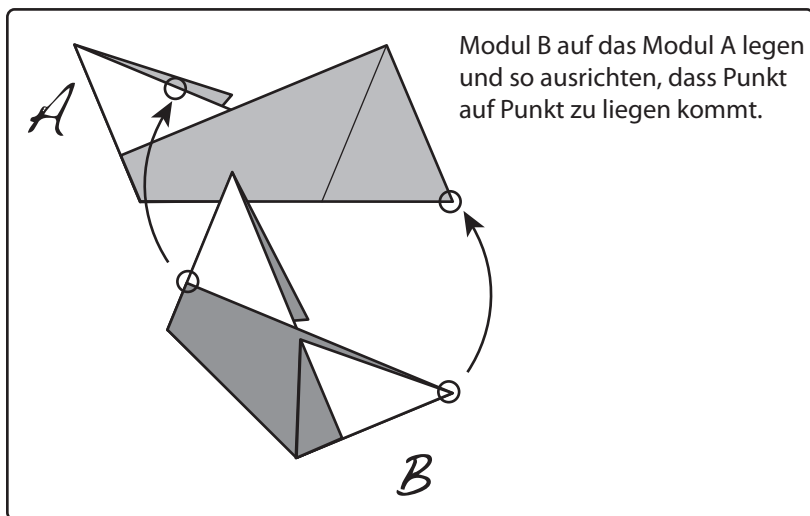

das Modul

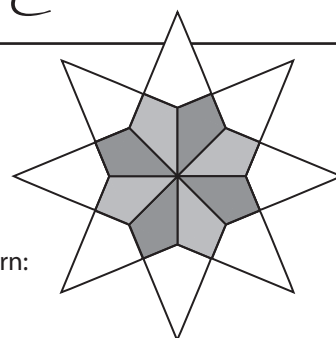

Anmerkung: Wenn im vorbereiteten Modulstreifen die Diagonale bereits vorhanden ist, weiter mit **Schritt 9**.

der Zusammenbau

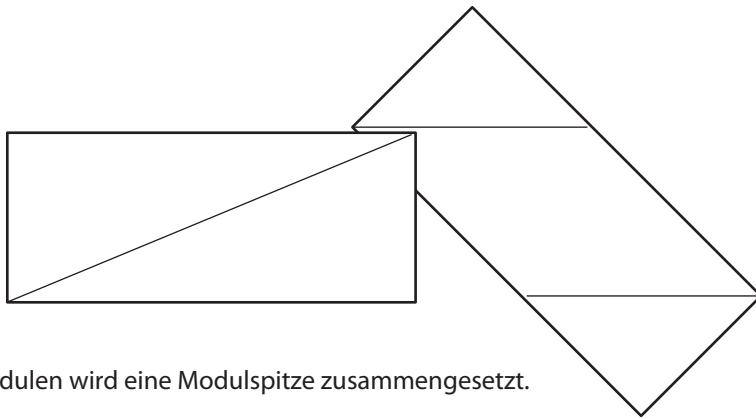

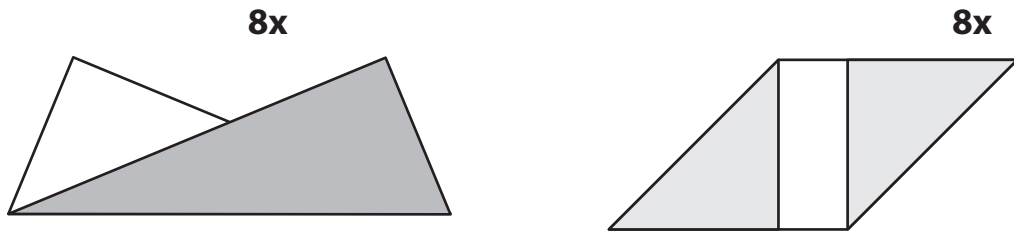

8 Module ergeben diesen Stern:

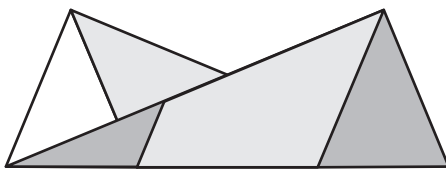

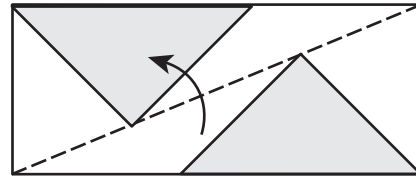

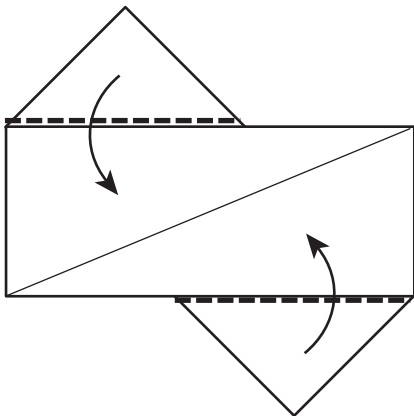

Variante

Insgesamt **16 Streifen** zuschneiden, wie in **Schritt 1-6** beschrieben.

Aus 2 Teilmodulen wird eine Modulspitze zusammengesetzt.

Weiter mit **Schritt 10** in der ursprünglichen Anleitung.

8 „eingewickelte“ Module ergeben diesen Stern:
